SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (RFA) (Pub. L. No. 96-354, 94 Stat. 1164) (September 19, 1980) requires each Federal agency, during April and October of each year, to publish in the **Federal Register** an agenda identifying rules that the agency expects to propose or adopt that are likely to have a significant economic impact on a substantial number of small

entities (5 U.S.C. 602(a)). The RFA specifically provides that publication of the agenda does not preclude an agency from considering or acting on any matter not included in the agenda and that an agency is not required to consider or act on any matter that is included in the agenda (5 U.S.C. 602(d)). Actions that do not have an estimated date are placed in the long-term category; the Commission may nevertheless act on items in that category within the next 12 months. The agenda includes new entries, entries carried over from prior publications, and rulemaking actions that have been completed (or withdrawn) since publication of the last agenda.

The following abbreviations for the acts administered by the Commission are used in the agenda:

“Securities Act”—Securities Act of 1933

“Exchange Act”—Securities Exchange Act of 1934

“Public Utility Holding Company Act”—Public Utility Holding Company Act of 1935

“Investment Company Act”—Investment Company Act of 1940

“Investment Advisers Act”—Investment Advisers Act of 1940

The Commission's RFA agenda is set forth below. The Commission invites public comment on the agenda and on the individual agenda entries.

Dated: September 2, 2005.
By the Commission.
Jonathan G. Katz,
Secretary.

The revisions also would likely take into account changes in financial reporting rules and the increasingly diverse lending and investing activities that expose registrants to credit risk.

Abstract: The Commission adopted amendments to Rules 16b-3 and 16b-7, which exempt certain transactions from the private right of action to recover short-swing profit provided by section 16(b) of the Exchange Act. The amendments clarify the exemptive scope of those rules, consistent with statements in previous Commission releases.

Because the Rule 16b-3(d) and (e) amendments clarify the regulatory conditions that applied to these exemptions since they became effective on August 15, 1996, they are available to any transaction on or after August 15, 1996 that satisfies the regulatory conditions so clarified. Because the Rule 16b-7 amendment clarifies regulatory conditions that applied to that exemptions since it was amended effective May 1, 1991, it is available to any transaction on or after May 1, 1991 that satisfied the regulatory conditions so clarified.

The Commission also amended Item 405 of Regulation S-K and S-B to harmonize that item with the 2 business day Form 4 due date and mandated electronic filing and website posting of section 16 reports.

Proposed Rule 56, previously considered in RIN 3235-AF79, would have clarified that a subsidiary of a registered holding company that is engaged exclusively in the business of owning an interest in one or more foreign utility companies would be deemed a foreign utility company. The proposed amendment to Rule 87 would have required registered holding companies to obtain Commission approval of intrasystem agreements involving foreign utility companies and exempt wholesale generators.

These proposals are being withdrawn from the Unified Agenda because of the repeal of the Public Utility Holding Company Act, effective February 8, 2006.

Legal Deadline: None

Abstract: The Division is considering recommending that the Commission propose amendments to the broker-dealer financial responsibility rules, including the net capital rule (Rule 15c3-1), the customer protection rule (Rule 15c3-3), the books and records rules (Rules 17a-3 and 17a-4), and the notification rule (Rule 17a-11).

Together, these rules require broker dealers to (1) maintain specified levels of liquid assets, (2) create reserves for amounts owed to customers, (3) maintain possession or control of customer fully paid and excess margin securities, (4) make and maintain books and records, and (5) provide regulators, if necessary, with notices of extreme events.

The amendments under consideration would facilitate the use of cross-margining of certain customer accounts; reduce certain capital charges in Rule 15c3-1 to better align the requirement with the risk; and generally strengthen the financial responsibility rules in certain areas.

Abstract: As part of its efforts to respond to fraud and manipulation in the microcap securities market, the Commission proposed amendments to Rule 15c2-11. These amendments would limit the Rule's piggyback provision and increase public availability of issuer information. The amendments would modestly expand the information review requirements for non-reporting issuers and the documentation required for significant relationships between the broker-dealer and the issuer of the security to be quoted. Finally, the amendments would exclude from the rule securities of larger, more liquid issuers.

Legal Authority: 15 USC 78c; 15 USC 78o-3; 15 USC 78q; 15 USC 78w

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: The Commission proposed new rules and amendments to existing rules and forms under the Securities Exchange Act. The proposals pertain to the oversight and operation of self-regulatory organizations (SROs) that are national securities exchanges or a national securities association. The new rules would strengthen the governance and administration of national securities exchanges and national securities associations. In addition, the proposal includes amendments to SEC forms for registration as a national securities exchange or national securities association to require that those SROs include specified information relating to their governance, regulatory programs, financial statements, and ownership structure. Further, the Commission proposed a new rule to require exchanges and associations to submit quarterly and annual electronic reports on particular aspects of their regulatory programs. Finally, the proposal would impose certain checks on the heightened potential conflicts that arise with demutualized SROs relating to the “self-listing” of the SRO’s or affiliate’s stock, but not otherwise seek to

regulate controlling shareholders of an SRO.

In the release, the Commission also provided interpretations of the proposed definition of NRSRO. The comment period for the rule proposal closed on June 9, 2005; thirty comment letters were received.

Abstract: The Commission adopted Regulation NMS. In addition to redesignating the existing national market system rules adopted under section 11A of the Securities Exchange Act of 1934, Regulation NMS incorporates four substantive proposals that are designed to enhance and modernize the regulatory structure of the U.S. equity markets. First, the rule requires trading centers to establish, maintain, and enforce written policies and procedures reasonably designed to prevent the execution of trades at prices inferior to protected quotations displayed by other trading centers, subject to an applicable exception. Second, the Access Rule requires fair and nondiscriminatory access to quotations, establishes a limit on access fees to harmonize the pricing of

quotations across different trading centers. The Sub-Penny Rule prohibits market participants from accepting, ranking, or displaying orders, quotes, or indications of interest in a pricing increment finer than a penny, except for securities with a share price of below \$1.00. Finally, the Commission amended the Market Data Rules to update the requirements for consolidating, distributing, and displaying market information.

Abstract: The Commission streamlined the procedures for removing from listing and from registration, securities under section 12(d) of the Securities Exchange Act of 1934 (Exchange Act). Specifically, the Commission amended Rule 12d2-2 and Form 25, so that the Commission would no longer issue an order to remove a security from listing and registration on a national securities exchange. Instead, all issuers and

national securities exchanges seeking to delist and deregister a security in accordance with the rules of an exchange would file a revised Form 25 with the Commission. The Commission also amended Rule 19d-1 under the Exchange Act to require exchanges to file revised Form 25 as notice to the Commission under section 19(d) of the Exchange Act. Finally, the Commission exempted options and security futures from section 12(d) of the Exchange Act.

CFR Citation: 17 CFR 205

Legal Deadline: Final, Statutory, January 26, 2003.

Abstract: The Commission adopted a rule establishing standards of professional conduct for attorneys who appear and practice before the Commission on behalf of issuers in accordance with section 307 of the Sarbanes-Oxley Act 2002. The standards include a rule requiring an attorney to report evidence of a material violation of a securities law or breach of fiduciary duty or similar violation by the issuer up-the-ladder within the company to the chief legal counsel or the chief executive officer of the company (or the equivalent thereof) and, if they do not respond appropriately to the evidence, requiring the attorney to report the evidence to the audit committee, another committee of independent directors, or the full board of directors.

The Commission is still considering the "noisy withdrawal" provisions of the original proposal under which attorneys would be required under certain circumstances to withdraw from representing an issuer and disclose that

fact to the Commission. In the related proposing release, the Commission discusses that part of the original proposal and seeks comment on additional alternatives. Although the Commission has not yet determined the date for the next action in this rulemaking, that does not necessarily mean that the Commission will not act within the next 12 months.
